## **Additional Hiring Information**

At United Services, our staff of over 250 professionals includes psychiatrists, APRNs, clinicians, case managers and other direct care staff, and administrative positions. United Services may also occasionally have a need for respite and per-diem staff.

We only consider applicants who meet the minimum educational and experience qualifications listed for a position. We encourage LCSWs, MSWs, those who are fully fluent in Spanish and English, and individuals who have a diverse background to apply.

Because we value diversity and the ability to meet the needs of community residents, United Services pays higher starting salaries to employees who are fully fluent in Spanish and English. United Services also provides LCSW supervision for those seeking licensure.

Please be advised that United Services employees at all levels are not permitted to engage in private practice. Employment relationships with other providers may be permitted, subject to conflict of interest reviews
